

What to do with a Digitized Collection of Western Folk Song Melodies?

Peter van Kranenburg and Berit Janssen
Meertens Institute, Amsterdam

Outline

History

- Ideological backgrounds
- Classification Systems
- Other projects
- Recent developments

Meertens Tune Collections

What to do?

- Music Cognition
- Oral Variation
- Cultural Heritage
- Music Information Retrieval

History – Selective Overview

Starting point of modern Folk Song Research (Volksliedkunde) generally dated in late 18th century Germany.

Interest in Folk Songs stimulated by Romantic ideology as advocated by Gottfried Herder and brothers Grimm.

Herder: Folk song is the 'mirror' of the soul (*Geist*) of the people.

12 June 2014

3

History – Selective Overview

Herder c.s.: essentialistic-normative tradition.
Essentialistic: intrinsic qualities
Normative as opposed to empirical

Only 'authentic' (*echte*) songs reveal the *Volksgeist*.

Quest of folk song researchers: discern authentic folk songs:

- Oral transmission
- Popularity
- Continuous Variation
- Anonymity
- Dignity
- Ancient and Persistent.

Left behind in the second half of the 20th century.

12 June 2014

4

Five to Twelve

URGENCY: collect as much as possible before it vanishes.

Herder: "Die Reste aller lebendigen Volksdenkart rollen mit beschleunigtem Sturze in den Abgrund hinab."

Wiora (1959): Folk song is irrevocably doomed.

Suppan (1978): Folk song is dead.

12 June 2014

5

History – Selective Overview

Herder published editions of folk song texts from various countries.

19th century editions of melodies by Ludwig Erk and Franz Magnus Böhme

420. *Die Lore am Thore.*

Braun, Siebert, 1. Studenten Berlin 1813. Silber.
Bells. 12. Nr. 5. Aus *seinem Commeinschul* (1858).

Den al-ten den Wäld-en so blant und so blant ge-fällt mir an de-ven die
Wo-rr; den al-ten den Win-teln und Glüh-chänen der Stadt ge-fällt mir's nur dawen am
Tho-rr. Der Mei-ser der Schumme-rr, als hab' er Be-ru-dach, als hab' er Ver-
dacht auf die Wo-rr; sie ist mein Ge-dan-ke bei Tag und bei Nacht und

Das Lied vom Fischer.
Deutsch

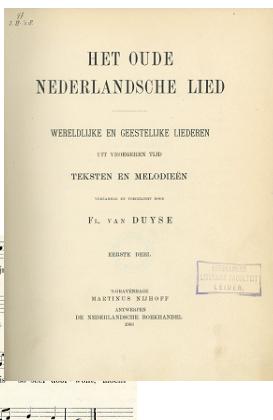

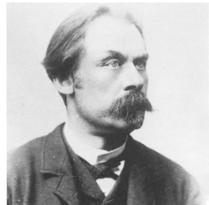

Das Wasser rausch't, das Wasser schwoll,
Ein Fischer sag' darum;
Sob nach dem Angel ruhevol,
Küßt mich an's Hex' himm;
Und wie er singt und wie er lautet,
Zweit sich die Blau empfert;
Aus dem bewegten Wasser rauscht
Ein fröhliches Weib herver.

8

Classification Systems

How to order melodies?

1900: Daniel Scheurleer organized a competition:

“Welche ist die beste Methode, um Volks- und volkmässige Lieder nach ihrer melodischen (nicht textlichen) Beschaffenheit lexikalisch zu ordnen?”

What is the best method for the lexical ordering of folk and folklike tunes?

Translation by Nettl 2005, p. 123.

12 June 2014

9

Classification Systems

Ilmari Krohn (1903):

Cadence tones

The musical notation consists of four staves of music in common time with a key signature of one sharp. The lyrics are in Dutch. Red circles highlight specific notes on each staff, likely indicating cadence tones. The lyrics are as follows:

In Eng - land woond' een koop - man rijk en mach - tig
Die had een doch - ter ge naamde E - li - sa - beth
Zij be - mind' een stal - knecht zo trouw en zo mach - tig
Tot dat haar ou - ders de liefd' al werd ge - waar.

NLB070122_01 - <http://www.liederenbank.nl/liedpresentatie.php?zoek=70122>

12 June 2014

10

Classification Systems

Bartók adapted Krohn's system:

4 4 1, 8, 1-8

Muz. F. 1016a; IV. Csíkvacsáresi (Csík), 1907.; B.

Parlando, $\text{♩} = \text{ca. } 144$

22. 1. Mí-kor a nagy er-dőn ki-méz,

Ar - ra kér-lek, visz-sza ne nézz;

Nele - gyen szú - ved-nek ne - héz. Hogy az i - de - gën föld - re méz.

Many more systems were conceived and abandoned during the 20th century.

W. Steinbeck; B. Jesser

Wolfram Steinbeck (1982). *Struktur und Ähnlichkeit.*

Hierarchical clustering

Barbara Jesser (1991). *Interaktive Melodieanalyse.*

Finding related melodies interactively.

12 June 2014

15

Music Information Retrieval

Interested in collections of monophonic melodies for testing algorithms:

- Segmentation
- Melodic Similarity
- Pattern Finding
- etc.

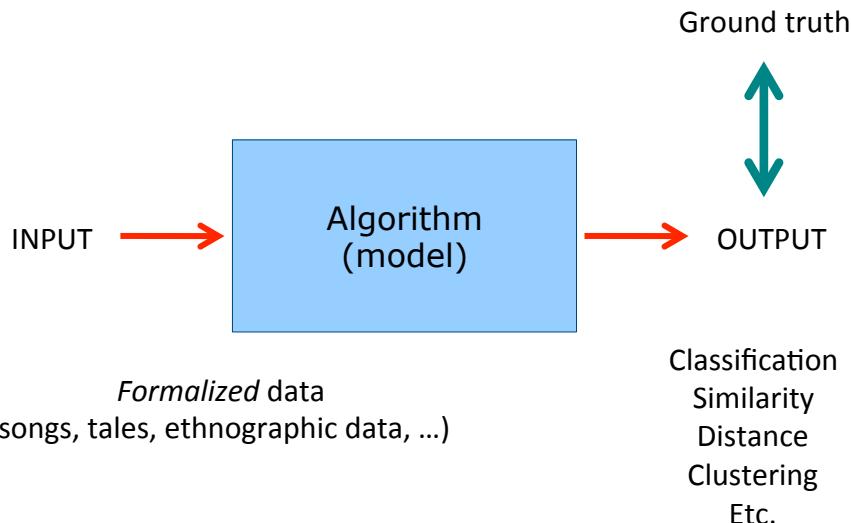

Meta-data is regarded as *ground-truth*.

Virtually all papers in the proceedings of ISMIR in which this set of melodies is used do not show an interest in folk music and its particularities as such.

Meertens Tune Collections

<http://www.liederenbank.nl/mtc>

Name	Description	data types	version
MTC-OGLAUDIO	Collection <i>Onder de groene linde</i> : 7178 audio recordings collected by Dutch field workers during the 1950s-1980s.	mp3	1.0
MTC-OGLSCANS	Scans of 3754 transcriptions of recordings from <i>Onder de groene linde</i> as made during the 1950s-1980s. The music is hand-written, the lyrics are typed.	jpg	1.0
MTC-FS	4120 digitally encoded vocal folk songs both from <i>Onder de groene linde</i> (2503) and from various related written sources (1617).	**kern, midi, lilypond, png, pdf, txt	1.0
MTC-INST	2368 digitally encoded instrumental tunes from 18th-century Dutch manuscripts and printed scores.	**kern, midi, lilypond, png, pdf	1.0
MTC-ANN	Annotated Corpus: 360 melodies used in various publications.	**kern	1.0
MTC-LC	Large Corpus: 4830 melodies used in various publications.	**kern	1.0

Each collection comes with rich meta-data.

What to do?

What to do with a Digitized Collection of
Western Folk Song Melodies?

12 June 2014

22

Music Cognition

These melodies were sung by ordinary people with little or no formal musical training.

Study human musicality:

- memory for melody
- strategies of text-setting
- properties of singing
- common errors

4. Zeg vrouw, waarom er weinest doe en hoera. (bis)
Al wein ik zo al om dat bier.
Doe meinst doe kriegs'tér geen geld voor hier en hoera.

12 June 2014

23

Music Cognition

Examples:

Temperley (2008): extract distributions from EsAC collection.

Von Hippel & Huron (2000): Gap-fill rule explained by regression to the mean.

Schellenberg (1996) used a corpus of folk songs to refine Narmour's (1990) theory of melodic structure empirically.

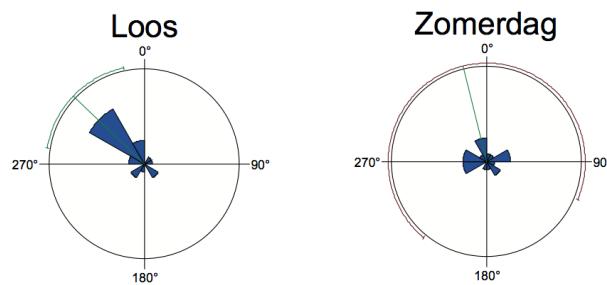

12 June 2014

24

Music Cognition

Examples:

Memory for Absolute Pitch in Oral Tradition:

Olthof, M. E., Janssen, B., Honing, H. (2014). The Role of Absolute Pitch Memory in the Oral Transmission of Folksongs (in prep.)

12 June 2014

25

Understanding Oral Variation / Stability

Record 72103 - Strophe 1

Record 72283 - Strophe 1

Record 72284 - Strophe 1

Record 72285 - Strophe 1

12 June 2014

26

Understanding Oral Variation / Stability

Nettl (2005): What is the ‘basic unit of transmission’?

Whole piece?

Formulae?

Motifs?

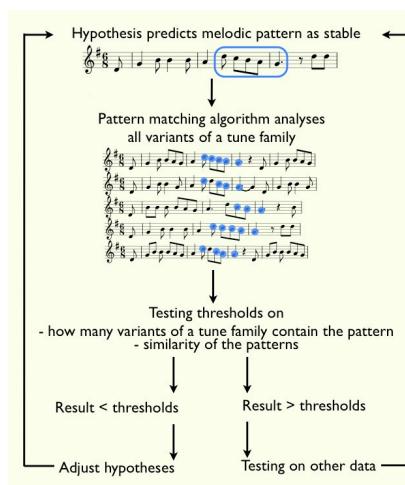

This question could be addressed with a pattern finding algorithm.

12 June 2014

27

Understanding Oral Variation / Stability

We test hypotheses on melodic stability.

Berit Janssen (2014)

12 June 2014

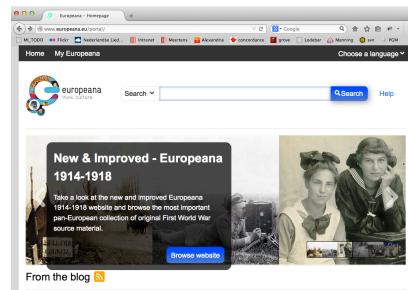

28

Cultural Heritage

Currently much funding spend on preservation and digitization of European Cultural Heritage

E.g. Europeana.eu

To unlock and search digitized artifacts, adequate models and tools are needed.

12 June 2014

29

Music Information Retrieval Tasks

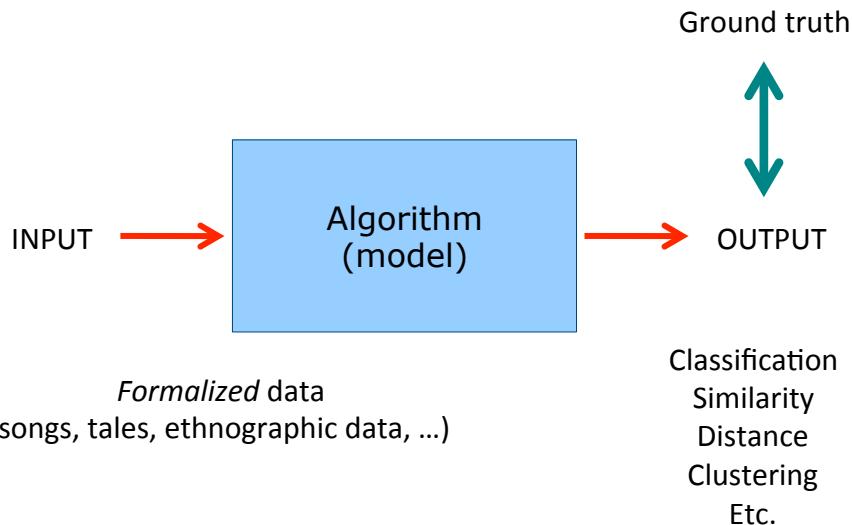

Examples with Meertens Tune Collections:

- Melodic Segmentation
- Melodic Similarity
- Geographic Clustering
- Audio-Score alignment
- Singer classification
- Optical Music Recognition
- Pattern discovery
- Lyric-Audio alignment
- Key-finding
